

H2H Network Tropical Cyclone Harold SUPPORT PACKAGE

Provide additional support to the field responders in Vanuatu and nearby islands following the devastating passage of the tropical cyclone

The H2H Network consists of independent service providers who provide expert services for responders in and during an emergency. The services are intended to be accessible to all responders. Below you can see who is providing what services, as well as contacts per organisation.

For other H2H Network service requests, contact info@h2hworks.org

Who	What?	Watch for...	Contact
CDAC*	Provision of life-saving information ranging from shelter, food and water to issues around gender-based violence and COVID-19 messaging. Two-way communication processes are in place and communities are receiving the information they need. Linking with Field Ready on their WASH material messaging.
