The H2H Network
Support package: Sudan conflict escalation

Following the rapid conflict escalation in Sudan, the H2H Network has activated its funding mechanism to support the humanitarian response in the affected region. The funding is enabling six H2H Members to provide services aiming to fill gaps and improve the response to better meet humanitarian needs.

The package of services will address security and safety measurements, rapid needs assessments, communication and engagement with affected people, and access to information.

As part of the funded package, services are freely available to all responders.

This H2H Network fund allocation is supported by UK aid – from the British people. The H2H Network is also supported by USAID, Sida, and the Disasters Emergency Committee (DEC).

Support package
Sudan conflict escalation

Who?	What?	Contact
Community engagement & accountability		
Internews, DEMAC, CDAC Network	Supporting humanitarian responders and decision makers to improve communication and engagement with conflict affected people in order to ensure that their voices and priorities inform an accountable response. Enabling guidance on how the affected population can make safety decisions and know how to access essential aid and services.	**Lea Krivchenia**, Internews Senior Humanitarian Program Manager, lkrivchenia@internews.org
The New Humanitarian	Informing short and long term response measures and communicating the needs of affected communities by sharing their stories and amplifying their voices.	**Jijo Vadukoot**, External Relations Officer, jijo@thenewhumanitarian.org
Security, Logistics & Programme support		
insecurity Insight	Informing the aid community about how violence impacts the delivery of aid, healthcare, education and protection; strengthening predictive and mitigation capacities within the aid sector to enable better responses that respect humanitarian principles and protect staff.	**Christina Wille**, Director, christina.wille@insecurityinsight.org
Data, information management & analysis		
iMPACT Initiatives	Conducting rapid needs assessments and monitoring in Sudan and neighboring countries such as Chad, CAR and South Sudan, to provide a better understanding of the needs of refugees, internally displaced people and those affected by the conflict.	**Ayah Al Zayat**, Sudan Country Coordinator, ayah.alzayat@impact-initiatives.org

The H2H Network
Getting more to people in need

The H2H Network brings together nearly 60 specialized, independent humanitarian service providers who enable efficient, impactful and accountable aid during a crisis by facilitating and resourcing humanitarian-to-humanitarian (H2H) services for the wider system.

Independent, cross-cutting services are well-suited to address many of the gaps and challenges that continue to hamper humanitarian action. Together, these organizations are leading efforts to reform and improve the global humanitarian response.

The H2H Network supports its members by enabling collaboration, fostering community, and allocating resources. In response to crises, we activate and disburse funds quickly to meet specific needs in the wider humanitarian system, as well as identify and create synergies between our members to ensure collaboration.
